

Hanzell

“Six Sonoma County Day Trips -
Visit the most accommodating wineries and fuel
up at local restaurants.”

HANZELL VINEYARDS

“The tour at Hanzell gives visitors an intimate look at this historic estate and insight into its highly regarded wines. Hanzell pioneered efforts to grow Chardonnay in California, and today is home to some of the oldest continuously producing Chardonnay (and Pinot Noir) vines in North America. Tour guides lead guests on an exploration of the property and vineyards while explaining the innovations in California winemaking first explored at Hanzell.

This is one of the best sites for an unhurried, sit-down tasting; older vintages are also offered.”
